Wall mount Installation Guide

Step 1: Choose the siding appropriate for mounting.

- ❖ The thickness of siding is 5 cm at least or above.
- ❖ Please confirm the material and strength of the wall is appropriate for mounting.
- ❖ Use the expansion bolts (B) to fix the hanging bracket (A) on the wall.

Step 2 : Mounting the hanging profiles (C) on the display.

- ❖ Please power off the display between mounting.
- ❖ Use screws to fix the hanging plate (C) on the display.

Screw D	PHW M6* L18mm, 4 PCS	For 42"~55"
Screw E	PHW M8*L18mm, 4 PCS	For 65"~80"
