

**NOTE: The PxR Rotation Tool can only be installed on i3COMPUTER OPS models: 307, 507 and 707.**

1. Download and install the i3 License Manager (1.0.17.0):

<https://www.i3-technologies.com/media/6958/i3licensemanagersetup-1017.msi>

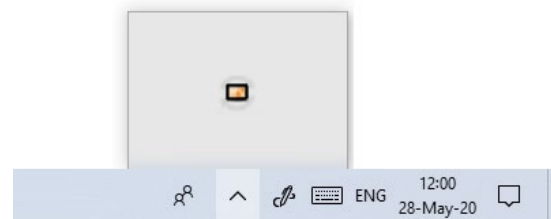

Follow the installation instruction of the Installer Setup.

2. Download and install the i3 PxR Rotation Tool (1.0.2):

<https://www.i3-technologies.com/media/6959/i3pxrrtdinstaller.msi>

Verify the PxR Rotation Tool is running in the Windows System Tray.  
(Reboot your OPS computer if not. The tool will automatically start upon startup of your OPS).

When both i3 License Manager and i3 PxR Rotation Tool software are installed, the Windows desktop of the OPS computer will follow the physical rotation of the display between landscape and portrait orientation.
